

COVID-19 South Plank Branch Update

The health and safety of Hudson Heritage members and employees is of the utmost importance. We wanted to inform you that on March 26, 2020 an employee located at our South Plank Branch on 211 South Plank Road Newburgh, NY reported experiencing some cold/flu like symptoms. Once the employee confirmed these signs which are also similar to COVID-19 (coronavirus) symptoms, they were instructed to seek medical guidance. Near the end of the day on Friday, April 3 we were notified this employee tested positive for COVID-19 (coronavirus).

During the time this employee showed symptoms, this branch lobby was already closed to the public. As of this time we have not received information of any other COVID-19 illnesses related to this case.

The branch is scheduled to be professionally cleaned through a deep clean process as per CDC guidelines by a designated cleaning firm. Due to this process, we have temporarily closed the South Plank Branch in Newburgh, NY until the cleaning is complete. An update notice will be provided once the branch is ready to re-open for drive-through services.

We apologize for any inconveniences this may cause and we appreciate your understanding of the measures the Credit Union is taking for health and safety reasons.

Stay Safe.
